### Message

I am delighted to extend my warmest greetings for the forthcoming India Health Dialogue (IHD), scheduled to be held in November 2023 in New Delhi. The India Health Dialogue serves as a platform for renowned experts, policymakers, researchers, and healthcare professionals to come together and engage in fruitful discussions on pressing health issues. The dialogue promises to be highly impactful as they deliberate on the latest advancements, challenges, and opportunities in the field of healthcare.

I recognize the critical role that research, innovation, and collaboration play in shaping the future of healthcare in our nation. This dialogue will provide an ideal setting for sharing knowledge, experiences, and best practices that can contribute to the overall improvement of public health in India. The theme for this year's India Health Dialogue is "Transforming Healthcare for a Resilient Nation." IHD aims to explore transformative approaches, technologies, and policies that can bolster our healthcare system, enhance its resilience, and ensure equitable access to quality healthcare for all citizens.

The event will feature thought-provoking keynote speeches, panel discussions, interactive sessions, and presentations from eminent speakers from India and around the globe. IHD have curated a diverse and comprehensive program that encompasses various dimensions of healthcare, including public health, medical research, digital health, healthcare infrastructure, and much more.

I encourage all participants to actively engage in the IHD, share their insights, and foster meaningful collaborations. Together, we can collectively work towards achieving our shared vision of a healthier, happier, and more prosperous India.

I express my gratitude to all the participants, sponsors, and organizing committee members for their dedication and support in making this event possible. I also extend my heartfelt appreciation to the Ministry of Small-, Medium- & Micro Enterprises (MSME), Ministry of Health and Family Welfare (MoHFW), and other key stakeholders for their unwavering commitment to advancing healthcare in our nation.

I eagerly look forward to welcoming each one of you to the India Health Dialogue in New Delhi this November.

With warm regards,

  
[Rajiv Bahl]
